

# Mining and Financial News

BY REVIEW LEASED WIRE

NEW YORK, Sept. 28.—Resumption of leadership by U. S. Steel was the noteworthy feature of today's market, in which trading for the twentieth successive full session extended well over one million shares, to approximately 1,559,000. Of this total United States Steel furnished not less than 70 percent, fluctuating between 115% and 118% and closing at 118%, a net gain of three points. Its chief rival was Republic Iron and Steel, which has been conspicuously strong of recent weeks, and which made a rise of 8 points to 82, a new record. Earnings of the company are so large as to leave little doubt of payment of remaining back dividend on the preferred stock, leaving the way open for dividends on the common.

Coppers were among the other strong issues, Inspiration making a new maximum at 69%, with heavy dealings in Kennicott and Anaconda. Inspiration directors voted to increase the privileged rates of dividends.

Motor shares and allied issues were mainly at higher levels. General Motors repeating its recent high price of 750. Shipping shares were steady. Equipments and munitions were subject to varying changes, Bethlehem Steel gaining almost 10 points with an additional 4% for General Electric which rumor says will have an increased or extra dividend disbursement at an early date.

American Can, Texas Company, were higher by one to two points. Bonds were strong with substantial activity in international issues. Total sales, par value, \$6,875,000. U. S. bonds were unchanged on call.

## METAL MARKET

NEW YORK, Sept. 28.—The metal exchange quotes lead 740 at 730, spot steady, spot East St. Louis delivery 3 at 1/2. Copper firm, electrolytic 27 at 28.50. Bar silver 69 1/2.

## CHICAGO GRAIN

CHICAGO, Sept. 28.—Assessors that irreparable drought damage has been done in Argentina carried the wheat market sharply upward today, regardless of reports that Greece had joined the Anglo-French allies. The market, although steady at the close, was 2 to 2 1/2 c higher with December and May both at 7 1/2 c. Corn gained 1/2 c to 5 1/2 c higher and oats 1/2 c to 1/2 c gain. In provisions the outcome ranged from 5c decline to 40c advance.

Notwithstanding that at the outset wheat prices responded to the news about Greece took a quick downward swing, the bulls again regained control and lifted the market without any trouble of material character. It was contended by some authorities that one effect would be to facilitate the advance of breadstuff price raising to British account.

Oats derived firmness from the action of other cereals.

Month end evening up of trades made provisions higher, the most notable bulge was in pork, which advanced 40c to the highest level this season.

## MARKET GOSSIP

JEROME, Sept. 28.—Pumps have been put back in winze at United Verde Extension. Understood water out and are now working there.

JEROME, Sept. 28.—Consulting engineer W. E. Defty of the Dundee Arizona is now in personal charge of installing new machinery and pumps. Work being rushed and pumps will be working soon and sinking of shaft resumed.

Work being pushed actively in ore body on 65 foot level, lime carbonates coming in. Arrangements being made to commence shipping ore shortly. Property is most favorable condition.

Stock market interests are giving more attention to the political campaign and the tendency for Hughes to gain. The strength in the railroad department is understood to be a direct reflection of a more confident feeling that his election is assured if the republican organization is aggressive.

An announcement in regard to Union Pacific melon cutting is persistently rumored as scheduled for the early part of October.

New York Central, U. P., Norfolk, C. & O., Southern Pacific and Atchafalpa are expected to go higher but the entire rail list is in line for improvement.

The way C. & O. acts it should be ready for a new 4 or 5 point move; so is Western Union.

Clark, Childs & Co. say: Large

realizing in industrials has made the technical position safer.

Harris, Winthrop & Co. say: A substantial reaction is due in the stock market.

Hayden, Stone & Co. say: Ability of the New York Central to increase its dividend to six dollar basis is probably not impaired by the eight-hour law.

Inspiration Copper declared quarterly dividend \$2 per share payable October 30 to stock of record October 13.

Regular dividend Virginia Chemical Pfd. 2 percent.

(By L. J. Overlock)

BOSTON, Sept. 28.—Market was irregular with Steel the strong feature recording a net gain of 2 1/2 points for the day. In the copper share list Copper Range was active and strong with a 2 point advance. Underlying conditions predicate a continuance of the upward trend and we continue to believe the good coppers should be bought on all slight recessions.

## SOCIALIST BENSON STILL TEARING DOWN

(By Review Leased Wire.)

PHILADELPHIA, Sept. 28.—"Wall Street is not concerned over who is elected, Wilson or Hughes but if they thought I had a chance they would be up in arms," declared Allen L. Benson, socialist candidate for president, in addresses which he delivered to two audiences here tonight. He attacked the President as an enemy of organized labor and scored the Adamson 8-hour law.

"Assuming that this is a working class I want to discuss with you your new friend and former enemy, the President of the United States," he said in opening his address. "There was a time when he did not care what the country thought of him, now he poses as a friend of labor. Do you consider the act of President Wilson in signing the Hay-Chamberlain army bill with its drafting clause an act of friendship?"

"In his utterances, Mr. Wilson has termed union labor men as 'unprofitable servants.' He broke the news to you recently that society demands an 8-hour day for 400,000 railroad workmen but how about the other 1,000,000 railway workers who are unorganized and who are not included in the Adamson 8-hour day bill? Mr. Hughes spoke the truth when he said that the Adamson law is not an 8 hour law at all.

"If Congress has the power to increase wages, why does the President not call that body together and pass a bill to increase the wages of all employees of corporations paying over four per cent annually?"

## SWISS OVERWHELMED BY INTERNED SOLDIERS

(By Review Leased Wire.)

BERNE, Switzerland, Sept. 2.—Dr. Arthur Hoffmann, foreign minister and head of the Swiss Political department announced today in parliament that preparations had been made for all students who are interned prisoners of war, to attend the Swiss universities. He further said that the question would be gone into as to whether all students and all men from sixteen to nineteen years of age who are prisoners of war in belligerent countries may become interned in Switzerland. Owing to the further increase in the number of sick and convalescent, Dr. Hoffmann said, the entire work of internment was taking on greater dimensions and threatened to exceed the power of Switzerland to take care of it.

"We are thinking already of calling on other neutral countries for cooperation, especially the United States," Dr. Hoffmann said.

—From Denver Post

## GRAHAM IS INDICTED.

BOSTON, Sept. 28.—An indictment against Walter B. Graham of Williams-town, charging fraudulent use of the mails in connection with the disappearance three years ago of Professor Cecil F. Lavell, of Ohio State University, was returned by the federal grand jury today. It is charged that Graham wrote Prof. Lavell's wife ask-

ing compensation for carrying for a man answering the Professor's descriptions who had been stricken ill on a train and had died Mrs. Lavell went to Williamstown, it is asserted, and after an investigation, lodged a complaint against Graham. Professor Lavell, while suffering from loss of memory, was found last March working as a dishwasher in a hotel at Colorado Springs.

## NEW YORK REPUBLICANS STRONG FOR HUGHES

SARATOGA SPRINGS, Sept. 28.—Generous support of every stand Chas. E. Hughes has taken in his campaign for the presidency and hearty endorsement of Governor Whitman's administration marked the platform which the Republicans in state conference here adopted early tonight.

An eleventh hour change in the plans of the leaders eliminated from the platform as adopted the tentative plank intended to place the party on record as in favor of a return to the system of nominating state officers by conventions. The belief finally prevailed that it was inadvisable to recommend the change at this time.

Prior to the final business session of the conference, the state committee selected presidential electors. Contrary to expectations no Progressives were named.

PARIS, Sept. 28.—"It is not a village the allies assaulted—it was a fortress," says La Liberté's special correspondent at the front in describing the taking of Comblies.

"When it was captured it was a charnel house. What remained of the garrison of two battalions fought fiercely and every corner of the town was the theatre for murderous combats. No ground was yielded. It was every inch of it conquered."
